EDUCATION

BINUS University

Undergraduate Student, Computer Science (GPA: 3.84/4.00)

Jakarta, ID

August 2024 - Expected August 2028

PROJECTS

[www.grace-web-portofolio.vercel.app](#) | *ReactJS, TailwindCSS, Framer Motion, Vercel* | [Link](#)

September 2026

- Developed and launched a fully responsive portfolio website using React.js and Tailwind CSS, showcasing my abilities throughout my academic and career life.

Conference Paper Published at ICIMTech 2026 proceeding (Scopus-indexed) | *Python, JavaScript* | [Link](#)

June 2026

- Designed and implemented a systematic ablation study using XGBoost for aboveground carbon estimation in Pulau Rinca, Komodo National Park, achieving $R^2 = 0.88$ by combining Sentinel-2 GLCM texture features with GEDI LiDAR metrics. Published in the ICIMTech 2026 proceedings and presented at the conference.

StressPredict | *Python, Streamlit, LightGBM, Scikit-learn, FastAPI, Groq LLM* | [Link](#)

June 2026

- Developed a web application to classify stress level into 3 classes; ran EDA, preprocessing, and benchmarking across 5 algorithms, selecting LightGBM (75.51% accuracy and 75.69% macro F1). Selected for showcase at Computer Science Festival 2026.

Career Success Factor Analysis | *Python, Pandas, Seaborn, Matplotlib* | [Link](#)

June 2026

- Conducted a data mining analysis on 400 graduate records to identify key drivers of career success; built a 7-page interactive Streamlit + Plotly dashboard and benchmarked 5 regression models for job-offer prediction, selecting Gradient Boosting (MAE 0.007) trained on a 10-feature questionnaire.

AksiKita | *Bun, NestJS, Prisma, PostgreSQL, JWT, Vue 3, Vite, Vuetify, UnoCSS, Turborepo* | [Link](#)

June 2026

- Built a location-based civic tech platform spanning 7 backend modules (auth, report, action, volunteer, comment, achievements, user) that lets communities report local issues and convert them into real action coordinated by volunteers; structured as a Turborepo monorepo with a NestJS + Prisma/PostgreSQL API (JWT auth) and a Vue 3 + Vuetify frontend running on Bun.

StuntingApp | *Python* | [Link](#)

Dec 2025

- Built an AI-based system using a Decision Tree Classifier (97.65% accuracy, 95.76% F1-score on 121K+ records) to predict stunting status from anthropometric data in real time, replacing error-prone manual measurement methods. Included patient data management and a monitoring dashboard with city-level case analytics.

Academic Information System | *SQL* | [Link](#)

Dec 2025

- Normalized a raw academic dataset (60 rows $\times$ 15 columns) to eliminate insert, update, and delete anomalies, decomposing it into 5 relational entities with a proper ERD. Implemented and validated the schema in MySQL using XAMPP.

LEADERSHIP & EVENT EXPERIENCE

BINUS University

Jakarta, ID

Master of Ceremony CIPHER 2026

Sep 2026

- Served as Master of Ceremonies for CIPHER 2026, a public tech expo at Mall @ Alam Sutera showcasing AI and Cybersecurity innovations. Hosted the event proceedings for a general audience, helping communicate emerging technologies in an accessible, non-commercial format.

Computer Science Student Association (HIMTI) BINUS

Semarang, ID

Vice Event Leader & Master of Ceremony, Region Semarang (SESVENT 2025)

Sep 2025 - Oct 2025

- Led the event committee and served as Master of Ceremonies for HIMTI's activist-selection program in Semarang; supervised planning, scheduling, and assessment coordination for new members while hosting the event proceedings.

Moderator, Region Semarang (TECHNO 2025)

Aug 2025 - Sep 2025

- Served as Moderator for the talk show "Down the AI Rabbit Hole: Prospects and Challenges in Academy & Careers" at HIMTI BINUS TECHNO 2025. Facilitated discussion on AI trends and their impact on academic and career opportunities for new students.

First Year Program BINUS

Semarang, ID

Freshmen Leader and Freshmen Partner

July 2025 - June 2026

- Mentored and facilitated a class of 40+ freshmen at BINUS University as a Speaker for their orientation.
- Mentored freshmen through their first year to support their academic transition, strengthening facilitation, adaptability, and collaboration skills
- Led a coastal mangrove/tree-planting project as part of the program's community initiative.

SKILLS & INTERESTS

Programming Language: Python, C, HTML, CSS, JavaScript, SQL, Java, TypeScript

Framework/Libraries: FastAPI, NestJS, [Vue.js](#), Streamlit, Pandas, NumPy, Scikit-learn, LightGBM, XGBoost, Plotly, Seaborn, Matplotlib, Vuetify, UnoCSS

Developer Tools & Databases: PostgreSQL, MySQL, Prisma, Docker, Git, GitHub, Vite, Turborepo, XAMPP, Groq
